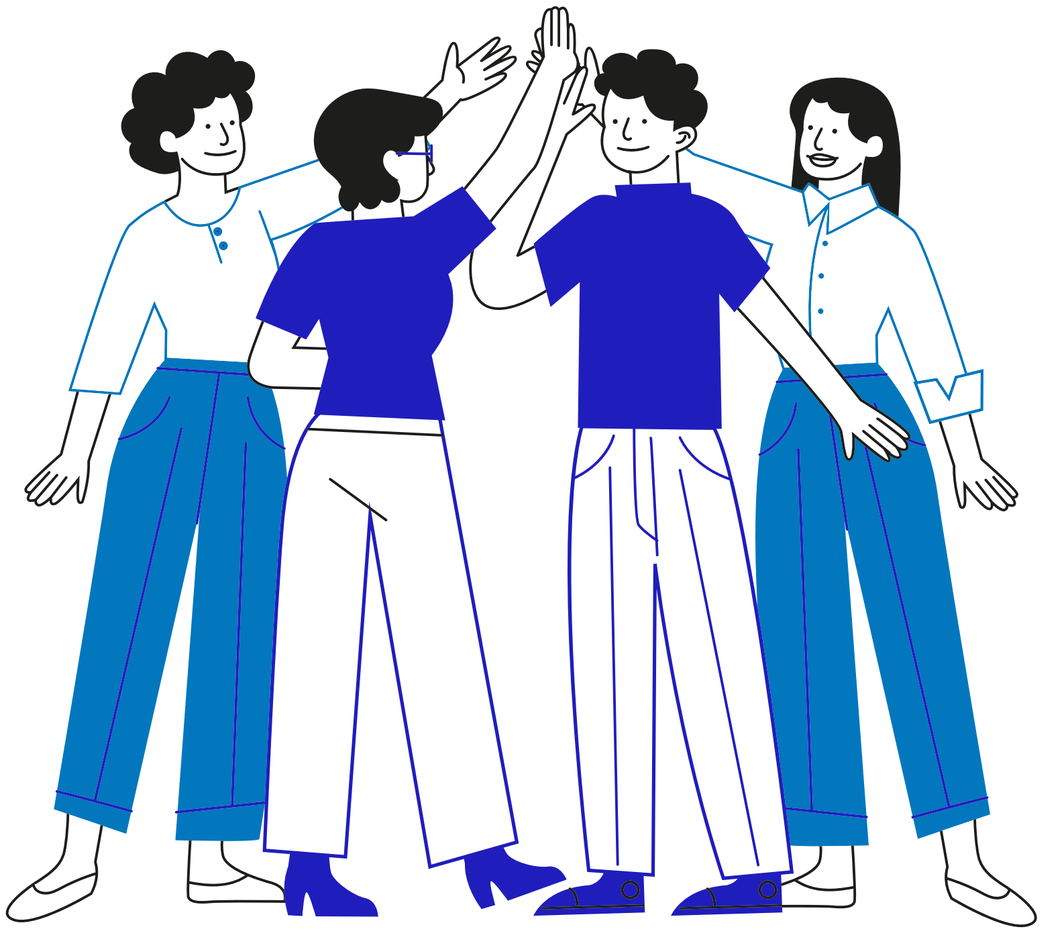
ABOUT

WHO ARE WE ?

We are five individual contributing together under the name "Frontend Designers" . We are highly motivated towards team work and contributing for the project we work upon. Apart from being teammates we are classmates too, so we share a good work-culture while working . We are here to present ourselves as a team, to step ahead contributing to best possible extent.



DEFINE

ABOUT OUR

EDUWISE

EduWise is an educational portal that caters to the needs of students by offering concise handwritten notes, effective exam preparation materials, previous year question papers, and important topics for exams. It provides comprehensive explanations in a well understanding format for subjects covered in the syllabus.

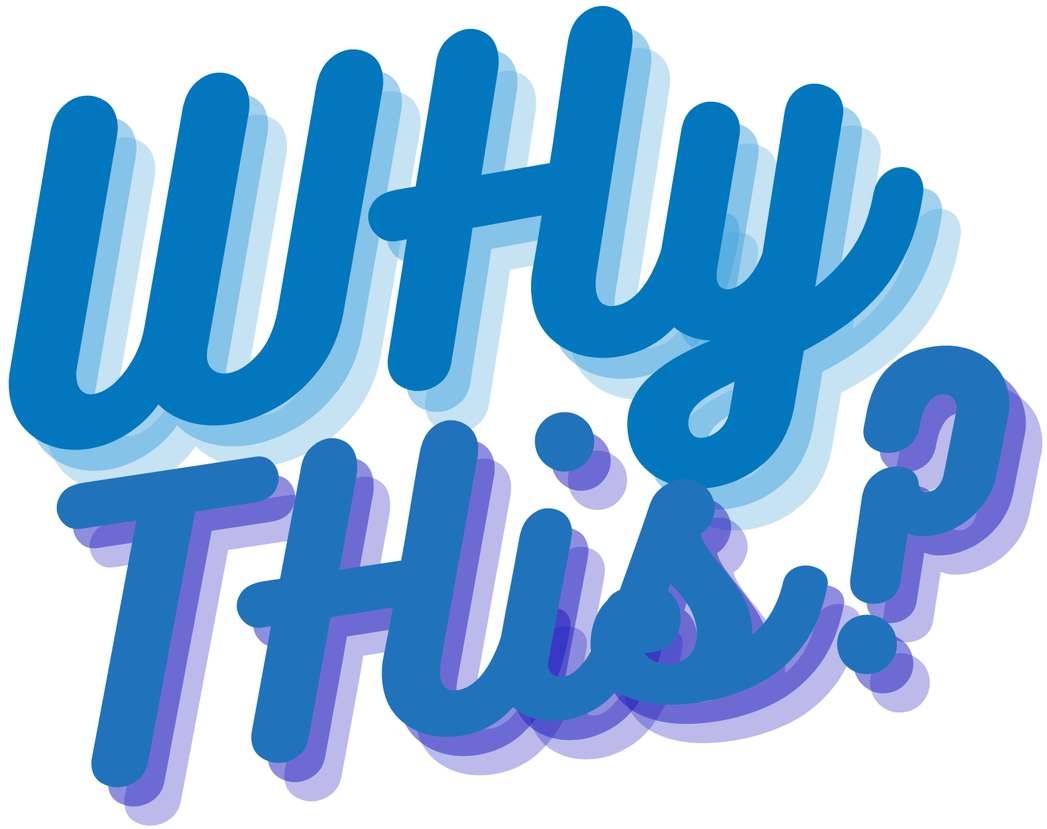
EduWise

IDENTIFY

WHY

THIS PROJECT ?

Our Approach : The objective of EduWise is to address the challenges faced by students in their academic journey. By providing concise handwritten notes, relevant study material, and previous year's question papers, EduWise ensures that students have access to high-quality resources in a convenient manner. It aims to enhance their understanding and retention of the subject matter.



CONCLUSION

OUR IDEOLOGY

EduWise's website is a one-stop solution for students seeking comprehensive study resources. It simplifies finding reliable materials, saving students valuable time and effort. The website's user-friendly interface and organized structure facilitate easy navigation and efficient learning. Students can benefit from organized resources, improved understanding, and enhanced academic performance, ultimately leading to their success.
